Client: Itowa
Model: ICFM
Standard: FCC 15.247
FCC ID: UIWICFM01ITW
Report #: 2006097

Appendix D: DA00-1407 Limited Modular Approval Justification

Please refer to the following page.

24th August, 2006

ITOWA, SAU
Faraday, 159
08224 TERRASSA
SPAIN

To Whom It May Concern:

We certify that our RF module comply with the points for obtaining the limited modular approval described in the DA 00-1407 FCC Public Note. According to this, our module comply the next:

- 1.- The modular transmitter will always have its own RF shielding.
- 2.- The modular transmitter has its own power supply regulation.
- 3.- The modular transmitter is tested in a stand-alone configuration.
- 4.- The modular transmitter will be labeled with its own FCC ID number. The FCC ID number will be: UIWICFM01ITW.
- 5.- Because this module will not be visible once installed in the equipment, we will attach an external label with wording that the equipment contains the FCC ID: UIWICFM01ITW.
- 6.- The use of the modular transmitter is only approved to be used inside Itowa equipment. We assure the compliance of the end product when it is assembled inside Itowa equipment according to the installation instructions supplied by Itowa to its authorized suppliers or to its authorized Technical Services. This includes the assembling of the correct antenna.
- 7.- From the perspective of the host, the antenna is either permanently attached, or internal.

Sincerely,

Ramon Faure
Investigation Manager
